Something over thirty persons were indicted at the late term of the United States District Court at Prescott, on information given by Bevans. As there is \$20 each in these, the United States District Attorney, Rouse, will have quite a shearing of fleece at the expense of the poor settlers ere he returns to his sweet potato patch in Missouri.—St. Johns Herald.

Judge Wright pronounced the following sentences this morning. Lee Newman, a sixteen-year-old boy, for grand larceny, two years in the penitentiary. Thomas Perry, a cowboy in the employ of the Perrin cattle company, for "shooting up" the town of Williams, indicted for assault with intent to commit murder, and who pleaded guilty to aggravated assault, was fined \$250. Phil McDonnell, indicted for assault with intent to commit murder, and convicted of aggravated battery, was fined \$500. The latter paid his fine and was released from custody, and it is understood that Perry will also pay his.—Journal Miner.

Darwin's Theory. "The survival of the fittest" is simply that the weakly die, while the robust and hardy thrive and live. How true this is of seed growth, and how necessary to sow only that which is suited by nature to live and develop.

D. M. Ferry & Co., the great Seed growers and Seed Dealers of Detroit Michigan, supply only the best and purest, raising their own seeds by the most improved methods with the greatest care, bringing to their business the invaluable aid of more than thirty years' experience. Their Seed Annual for 1889 is a real help to the gardener, and should be in the hands of all who desire to purchase pure and true seeds. Send your name to the firm's address at Detroit Michigan and they will forward you a copy.

Railroad Accident.

On Saturday the Atlantic & Pacific train, which should have arrived here at 9 o'clock that night met with a serious accident 15 miles this side of Prescott Junction in which five coaches and the engine went down a 100 foot embankment, and in which six persons sustained injuries, several of whom were seriously, and some probably fatally hurt.

It appears that the engineer was charging the air brakes, when for some unknown cause, the engine became unmanageable and went thundering along the track at a wild speed. The track in this neighborhood is said to be very bad and the speed of the engine spread the rails and ditched it and five coaches.

The engineer and fireman of the ill-fated engine were horribly cut and scalded in several places, and it is feared that they will die. Baggage Master Chas. Rodameyer was cut and bruised about the body and had his ankle dislocated. F. W. Schotts, postal agent, sustained a fracture of the left arm and several others less injured.

After the accident occurred a relief engine was sent for and pulled the remaining coaches back to Prescott Junction where freight cars were substituted for those in the ditch and the train moved on.

A Valuable Medical Treatise.

The edition for 1889 of the sterling Medical Annual, known as Hostetter's Almanac, is now ready, and may be obtained, free of cost, of druggists and general country dealers in all parts of the United States, Mexico, and indeed in civilized portion of the Western Hemisphere. This almanac has been issued regularly at the commencement of every year for over one-fourth of a century. It combines, with the soundest practical advice for the preservation and restoration of health, a large amount of interesting and amusing light reading, and the calendar, astronomical calculations, chronological items, &c., are prepared with great care, and will be found entirely accurate. The issue of Hostetter's Almanac for 1889 will probably be the largest edition of a medical work ever published in any country. The proprietors, Messrs. Hostetter & Co., Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood.

The Atlantic and Pacific Railroad Taxes.

The Courier was in error in stating that the Atlantic & Pacific railroad had paid their taxes according to the compromise made with the supervisors. As stated in the last issue of this paper, Judge W. C. Hazledine, on Monday, paid the taxes on the land grant owned by the company and on real estate owned in Flagstaff, amounting to over \$3,000. These taxes were paid as originally assessed, and not under any compromise. Judge Hazledine was also prepared to settle the railroad taxes as per compromise with the supervisors, but some doubt arose as to the validity of the compromise, and he had received a letter warning him that if the taxes were paid according to the compromise the company would be sued for the balance. Under these circumstances he refused to pay the taxes unless he could receive a receipt in full, and perfectly legal and valid. He therefore deposited two drafts, payable to himself, but undorsed, with W. C. Bashford, taking a personal receipt of the latter for them. One of them is for \$22,817.34, and the other for \$20,085.44. Judge Hazledine agrees with the county treasurer, that if at any time within ninety days, the legislative assembly of Arizona shall pass an act which will enable the proper officials of Yavapai county to release the Atlantic & Pacific railroad company from any further claims for taxes, penalties, etc., for the years 1887 and 1888 upon the payments of the above amounts, or if by judgment, the Supreme court, or otherwise any adjustment or arrangement, is made whereby upon the payment of these drafts the tax lien aforesaid can be extinguished and the railroad company and its property fully released and discharged from said taxes or any lien, charge or liability thereof, then he will endorse said drafts so that the same can be collected by the proper officer of the county, or at the option of the latter, redeem the same in cash, upon such officer giving a good and sufficient receipt in full of said taxes and any and all costs. From this, it will be seen that

the railroad has not yet paid its taxes, though willing to do so according to the terms of the compromise. But it will be from thirty to sixty days before the county can realize on the company's paper.—Journal Miner.

Citizens Bank.

This institution is more than redeeming the high expectations of the people who do business at Flagstaff.

It was the Citizens Bank that started the work on the large stone building known as the Bank Hotel Building, which is now rapidly approaching completion and will be one of the finest buildings in the Territory.

Today the bank moved into the corner rooms of this building which they have fitted up with the finest and best fixtures of any bank in the Territory, or the Southwest. Their counters are of antique oak, finished with the finest hand polished, with bevel edge french plate glass railing; in design neither plain nor gaudy but tempered with the good taste and sound judgment that would be expected of the staunch citizens who are behind and managing this institution.

No citizen of Flagstaff or northern Yavapai can help feeling proud of an institution which manifests so much enterprise as this bank, which is to use the words of one of its officials, "Organized of the people and for the people of northern Arizona." The large fire proof vault of this bank is built of the best material and made as heavy and strong as they are ever built in large cities. Inside this vault is their Diebold Burglar Proof safe of the latest pattern with the double, improved time lock guaranteed against the professional crackman's ingenuity, dynamite, and lockouts.

The daily business of this institution is under the care of its President E. S. Gosney and Cashier John Vories, both careful conservative self made business men. The Board of Directors composed of E. S. Gosney, David Babbitt, Harry Fulton, C. H. Schulz, J. F. Daggs, Wm. Munds and John Vories, meet regularly once a month, go over the general business, look into the affairs condition of the bank and discuss all matters of importance in exactly the same way as is required of National banks, thus throwing around it every safeguard and making it equally secure with National Banks.

The people of this community will not fail to show their appreciation of such enterprise.

Quick Work.
